Below graphs depict the final Score of considering all questions in each section in FEEDBACK TEST based on no. responses and weight of each option on the grading scale.

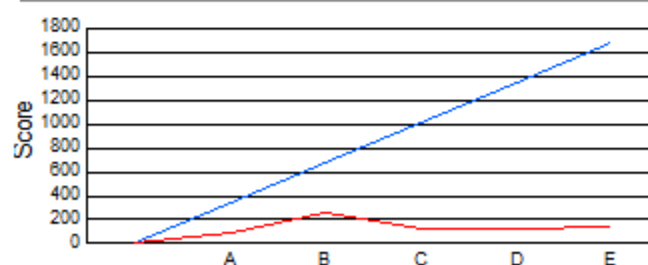

The other graph depicts the breakup of constituents of the obtained score i.e. each option on the grading scale.

The following graphs analyse the role of each item in effecting the overall feel good of the FEEDBACK TEST respondents. The graphs are plotted for each element of scale from Very Poor to Excellent. So the first graph depicts that which item had majority of negative responses and similarly the last graph depicts which item had more excellent score.

The below graphs depict (based on the score) the gap between the response received and the best & worst possible responses.
